PROFESSIONAL SUMMARY

Experienced IT professional with 7+ years of experience including 4+ years in Java Development and Production Support (L2). Skilled in troubleshooting, incident management, deployment support, API debugging, monitoring, and application support. Currently transitioning into DevOps with hands-on experience in AWS, Docker, Kubernetes, Jenkins, Terraform, CI/CD automation, Prometheus, Grafana, and Cloud technologies.

TECHNICAL SKILLS

Cloud & DevOps	AWS EC2, EKS, IAM, VPC, CloudWatch, Docker, Kubernetes, Terraform
CI/CD Tools	Jenkins, GitHub Webhooks, AWS CodeBuild, CodePipeline
Monitoring	Prometheus, Grafana, Kibana, CloudWatch
Programming	Java, Spring Boot, REST APIs, Microservices
Databases	MySQL, PostgreSQL, Tibero, MongoDB, Oracle SQL
Tools	Git, GitHub, Maven, Postman, SonarQube, JIRA, Linux

PROFESSIONAL EXPERIENCE

Corporate Infotech Pvt. Ltd. | Software Developer | Sep 2023 – Jan 2024

- Developed RESTful APIs using Java 8, Spring Boot, Hibernate, and JPA
- Worked on Docker and Jenkins build/deployment activities
- API testing and debugging using Postman
- Managed MySQL database operations and issue resolution

Tata Technologies | Java Developer / Production Support Engineer | Nov 2022 – Sep 2023

- Provided L2 Production Support for enterprise applications
- Worked on application monitoring, deployment, and troubleshooting
- Managed code operations using Git and Tibero DB queries
- Supported Spring Boot applications and REST APIs

Value Point Systems Pvt. Ltd. | Software Engineer | Jul 2021 – Nov 2022

- Supported GST portal applications and microservices monitoring
- Worked with Kibana, ServiceNow, and Linux environments
- Incident management and SLA-based support activities

DEVOPS PROJECTS

React Application CI/CD Automation

- Dockerized React application using multi-stage Dockerfile

- Created Jenkins CI/CD pipelines and Docker Compose setup
- Implemented Prometheus and Grafana monitoring
- Deployed application on AWS EC2

TrendStore DevOps Deployment on AWS EKS

- Provisioned infrastructure using Terraform
- Configured AWS EKS cluster and Kubernetes deployments
- Automated deployment using Jenkins and GitHub Webhooks

Brain Tasks App – AWS DevOps CI/CD Pipeline

- Configured AWS CodeBuild and CodePipeline
- Automated deployment to AWS EKS
- Implemented CloudWatch monitoring and logging

KEY SKILLS

- CI/CD Pipeline Automation
- Docker & Kubernetes Deployments
- AWS Cloud Infrastructure
- Infrastructure as Code (Terraform)
- Monitoring & Alerting
- Linux Administration
- Production Support & Incident Management

EDUCATION

Bachelor of Engineering (Electronics Engineering)

Institute of Engineering, Jiwaji University, Gwalior – 2014
